

Phonics Website Links and Apps Guide KS1

Name Website/iPad App	Games and Support Tools – Set 2 and Set 3
www.ictgames.com click Literacy (Computer/Laptop based)	Sound Recognition Games • Letters and Sounds Phoneme Pop – select a row of sounds and listen for the sound you need to spot (pop). Click on (pop) the sound every time you see it! Blending and Segmenting Words Games • DJ Cow's Spelling Patterns – select a sound and find the words with this sound in to complete the wordsearch and arrive at the DJ Cow Disco! Before you begin children could write the words out and put the sound buttons on the words – you could ask your child: what sound do they spot in each word? Is it a digraph or a trigraph? Is it a split sound or not? Can any other letters make this same sound? E.g. 'igh' is the same sound as 'ie' and the split sound 'i-e'. • Blending Dragon – your dragon is the mouse. Select the sound and let the game begin! Read the word in the sky – is it a real or fake word? If it's real the dragon can eat it – if it's fake your dragon must fly through the arch! Challenge – After the game has finished – children could have 1 minute on a timer and write down as many words as they can remember from the game with that sound it. Can they beat their score the next time they play it? 😊 • Pirate Poop Deck (Phase 2 and 3 Sounds) – select a sound and begin the game. The pirate will show a coin – if it's real click the green tick and if it's fake, click the red cross. Challenge – After the game has finished – children could have 1 minute on a timer and write down as many words as they can remember from the game with that sound it. Can they beat their score the next time they play it? 😊
www.phonicsplay.co.uk	Set 2 and 3 sounds all available. Dragons Den, Obb and Bob and Buried Treasure games support the style of Phonics Screening the best. These games ask children to sort words into real and fake words. Challenge – After the game has finished – children could have 1 minute on a timer and write down as many words as they can remember from the game with that sound it. Can they beat their score the next time they play it? 😊
Twinkl Apps – Phase 3 (purple), 4 (green) and Phase 5 (pink) – each phase is a separate app with the Buried Treasure game free on each of these apps OR you can buy a Twinkl App with ALL the phases on. 	There is a range of Letters and Sounds based activities within these apps. The game most tailored to the Phonics Screening is the Buried Treasure game – shown below. All games on these apps are useful though – the challenge can be applied to all of them.  Challenge – After the game has finished – children could have 1 minute on a timer and write down as many words as they can remember from the game with that sound it. Can they beat their score the next time they play it? 😊
You Can Read 	This app can be found on the iPad App Store and is free. It is a fun and interactive game that builds High Frequency and Tricky Word recognition as well as builds children's knowledge of simple sentence structures and punctuation.
