Go!                                                                                   | <b>Olympic Baking</b><br><br>Bake your own Olympic ring biscuit.                                                                          |
| Wednesday | <b>Olympic Sports Day</b><br>3 Team's<br>6 Races<br>Who will win Gold, Silver or Bronze?<br>Prizes for all teams.                                                                       |                                                                                                                                           |
| Thursday  | <b>Pom Pom Football.</b><br><br>Create your own stadium and compete with friends at pom pom football.                                                                                   | <b>School Yard Fun</b><br><br>Stuck in the mud<br>Capture the flag<br>Duck Duck Goose<br>Hot Potato<br>and lots and lots more.            |
| Friday    | <b>Balloon Tennis</b><br><br>Duces or aces, can you keep your concentration long enough for the balloon to fly over the net.                                                            | <b>Make your own Olympic Medallion.</b><br><br>Will it be Gold, Silver or Bronze?                                                         |

## Week 5- Multi Skills & Myth and Legends

19th August - 23rd August

| Day       | AM                                                                                                                                                                                                                                                                                  | PM |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Monday    | <b>Whats are myths and legends</b><br>Join us in a world of make believe, or is it?<br>Create and design your own mythical creature and world for it to live in, what will it look like where it lives?<br>Listen to some myths and legends. Do you think they are true if not why? |    |
| Tuesday   | <b>Giants CauseWay</b><br>Let's take a giant step to Ireland and find out about the giant Finn Mccool. What did he do? How did he do it?<br><br>Create some giant size feet and compete in some giant sized races.                                                                  |    |
| Wednesday | <b>George and the Dragon</b><br>Today we are going to make shadow puppets and retell the legend of George and the Dragon.<br>To be a Knight of the round table you need to protect yourself from Dragons so lets make out your own shield to stay away from that hot dragon fire.   |    |
| Thursday  | <b>Aliens</b><br>Are you brave enough to travel into space on the hunt for Alien Species? What would we need to go into space, how would we find them. What planet might they be from?                                                                                              |    |
| Friday    | <b>King Arthur</b><br>Can you pull the sword from stone, create your very own coat of arms and become a knight of the round table.<br>Rounding of the festivities with a mediaeval banquet fit for a king or queen.                                                                 |    |

## Week 6 Rockpooling

26th August- 30th August

| Day       | AM                                                                                                                                                                                                                                                    | PM                                                                                                                                                                                                                                                             |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Monday    | <b>Ocean in a Bottle</b><br>Using the resources provided can you create an ocean inside a bottle. What will it look like? What will you need to achieve this?                                                                                         | <b>Boat Making</b><br>Using the resources available to create a boat that will float for 10 seconds or more.                                                                                                                                                   |
| Tuesday   | <b>Create your own coral reef.</b><br>Using bright colours to create a coral reef and learn all about the Great Barrier Reef in Australia and how important it is to the environment.                                                                 | <b>Ocean Science</b><br>Today we are going to look at animals that glow in the dark, why do they glow in the dark and which part of the ocean do you think they live in.                                                                                       |
| Wednesday | <b>Rockpool and Water Adventures</b><br>We will be going on local walks to collect items that we can use to create our own rock pools on site. Before going the children will research what they might find in a rockpool and what we need to collect |                                                                                                                                                                                                                                                                |
| Thursday  | <b>Under the Sea Carnival.</b><br>Come with me under the sea to take part in our fabulous carnival lots of under the sea themed games with prizes to be won.                                                                                          | <b>Under the Sea Mysteries</b><br>Under the sea is a place full of mysteries and Phenomena from undersea crop circles, seafoam, the bermuda triangle and bioluminescence. This afternoon we are going to look into why these happen and try to create our own. |
| Friday    | <b>Shell Art</b><br>Create a masterpiece using shells, what will you need to help create the patterns on the shells.                                                                                                                                  | <b>Ocean Zone Bottles</b><br>Today we are going to create an Ocean Zone bottle and look at the fish that live in the different zones.                                                                                                                          |
