Action Plan

Eco-Schools Topic:
Litter

Aim:
We would like to reduce the amount of litter that we have on our school grounds. We noticed that some of our bins need to be emptied more regularly.

Action(s):
After a discussion with our Eco Warriors they found that there are not enough bins on the outside of school. They also found that the bins that are in the grounds of the school are sometimes overflowing.
We decided that taking part in the Great British Spring Clean will allow us to take part in a litter pick around our school grounds.

How long will it take?
-Litter Pick organised in afternoon sessions.
-Children encouraged to do this at home / in local area.

Who is responsible?
-Eco Warriors (Y2)
- Miss Reid

How we will monitor progress:
-Eco Warriors to observe where the most litter is being left on their walk into school, we can target specific areas.
Evaluation:
-After the GBSC
-Chn have picked up litter in own local area.

Eco-Schools Topic:
Marine

Aim:
To reduce the amount of single-use plastics in our school.

Action(s):
Due to COVID restrictions, we have used more single use plastic than we normally do. For lunch, we are hoping to ensure that we use metal cutlery rather than plastic cutlery. We also have plastic cups in our class, we want everyone to bring in their own reusable water bottle.

How long will it take?
-After restrictions lift (2021?)
-Immediately (water bottles)

Who is responsible?
-Eco Warriors (Y2)

How we will monitor progress:
-Until December 2021

Evaluation:
-Using metal cutlery only.
-Using reusable water bottles.

Eco-Schools Topic:
Energy

Aim:
To have access to school's energy meter or energy bills.

Action(s):
To ask Mr Culyer / Mrs Coxon if we could have access to the energy meter to read the readings over time and see if there is an increase / decrease.
Introduce energy monitors when we can move around school.

How long will it take?
-From September 2021- February 2022 (Due to COVID restrictions)

Who is responsible?
-energy monitors
-Eco Warriors
-Miss Reid

How we will monitor progress:
Take a reading in summer 2021(when allowed), and keep track and see if we can decrease the reading by 2022.
Evaluation:
Decrease in meter reading.

Action Plan

Eco-Schools Topic:
Waste

Aim:
To consider if we could encourage pupils and staff to use less paper towels.

Action(s):
We decided that we could try to encourage children to use less paper towels rather than buy hand dryers for people to use as it would cost too much money.
We are going to make posters to put in the toilets to encourage children and staff to use less paper towels.

How long will it take?
Should be completed by summer 2021

Who is responsible?
Eco Warriors
Miss Reid

How we will monitor progress:
-Consider the amount of paper towels being used and if there is a need for a higher amount that there has been in the past.
Evaluation:
-8 weeks.

Eco-Schools Topic:
Transport

Aim:
To take part in air pollution campaigns.

Action(s):
We are going to research and find any air pollution campaigns that we can take part in. We have looked at this in the past but would like to continue to work on this target.

How long will it take?
-By December 2021 we will hopefully have found an air pollution campaign to take part in.

Who is responsible?
-Miss Reid
-Eco Warriors

How we will monitor progress:
Ensure we find a campaign to take part in.

Evaluation:
By December 2021.
