Dear Parents & Carers

We are beginning to plan for our annual STEM week which will take place **9th – 13th February 2026**. As part of this week, we hold a STEM careers morning on **Friday 13th February** and we'd love to have parents/carers in STEM related careers to take part. This would meaning planning a 20-25 minute session to deliver to groups of approx. 20 pupils from Y3 to Y6 then repeat this across the morning on a carousel basis.

We have been so lucky in the past with parents/carers who have given their time to help us with this and we'd love to have a great selection again to interest and inspire our pupils.

Please get in touch via this Google form if you are able to support this or if you'd like more information:

[STEM careers morning - parent/carers volunteers needed – Fill in form](#)

Alternatively, if you can't make Friday morning but would be willing to talk about your STEM career to classes of children at another point in the week, we'd be delighted with this too!

Anything linked to Science, Technology, Engineering or Maths would be fantastic.

Please drop me a line at the above email. We'd love to hear from you.

Thanks in advance

Tony Rigg
